

Daniel AlShriky  
Sr. User Experience and Interaction  
Aug / 2nd / 2018

Dear Reinier Saat,

I am writing in response to the UX Designer vacancy at ASML Holding.

The diversity of industries I have worked in over the past 10 years has given me the transferable skills that prepared me to fit in this position. It involved a great deal of independent research, self-learning initiatives, and a wide range of skills within the digital design areas. I am a fast, creative and accurate designer and developer, with a focus on user experience, digital design, and user interface.

Started as an animator and interaction designer; I was appointed as a front-end developer to develop UI and integrated within UI projects, shortly after. And today I am a senior designer for User Experience and Interaction at Emirates Airline.

I have excellent references and would be delighted to discuss any possible vacancy with you at your convenience.
