

Daniel Alshriky

User Experience and Interaction Designer

Over twelve years of experience in user experience and interaction design, with a thorough understanding of UX methodologies across multiple platforms.

Heavily involved in UX/UI design, interaction design, and information architecture for complex systems, creating simple, intuitive and exciting products and services.

Worked in many industries, (including aviation, education, transportation, e-commerce, fintech, and customer service), as advisor for a number of startups, and as part of in-house design teams, that target a wide spectrum of audiences and users of diverse backgrounds.

Integrated 3D models with UI elements, while working closely with software developers and IT leaders to create gamified products.
